

## Objectives of the Greenhouse Gas Reduction Plan GES - Global Energy Services Siemsa S.A.

GES has developed a **Greenhouse Gas Emissions Reduction Plan** in line with the **Paris Agreement** and the **European goal of climate neutrality by 2050**.

This plan consists of **four quantified reduction targets over a five-year period, with 2024 as the base year**, including a set of measures aimed at progressively reducing **Scope 1 and 2 emissions**, with specific monitoring for each action, ensuring traceability and continuous improvement of the organisation's environmental performance.

### PERIOD: 2024-2028

#### OBJECTIVE 1:

Reduction of emissions in 2028 by **4.5%** compared to the base year (2024)

#### OBJECTIVE 2:

Internal analysis of **emissions evolution** by departments involved.

#### OBJECTIVE 3:

Reduce emissions associated with mobile combustion by **1%**: vehicle fleet.

#### OBJETIVO 4:

Achievement of the **'COMPENSO' seal** for the years calculated in the historical data and progressive offsetting of the new carbon footprint calculations.
